Procedure for changing a puller after the weigh-in but before the start of the competition.

In the case where a puller is injured prior to the start of the competition in which his/her team is entered.

-A team may replace one puller by informing the appropriate TWIF official at least one hour prior to the start of that particular competition.

-The puller coming off will be weighed and the puller coming in will be weighed, using the same procedure as in a substitution.

-If more than one puller needs to be replaced the entire team must re-weigh.

-Replacing one puller prior to the start of the competition does not have an effect on the ability of that team to make a substitution during the normal competition.
